MAINTENANCE WASHES

Every package starts with the same foundation, then builds up in protection and longevity. Choose the level of finish and durability that fits your goals — four certified tiers, from entry-level to our elite Finest Reserve.

INCLUDED WITH EVERY PACKAGE

- ◆ **Full Paint Correction**
Multi-stage machine polishing removes scratches & swirls and preps the paint for coating.
- ◆ **Maintenance Washes**
Complimentary maintenance washes to keep the coating performing.
- ◆ **Interior Detailing Package**
Complete interior clean and refresh as part of the service.
- ◆ **Certified Application**
Applied by an authorized D/CQUARTZ & Finest Reserve certified installer.

- ◆ **One Cohesive System**
Every surface protected with matched CarPro chemistry.

Paint Protection Film and ceramic coating do two different jobs — and together they deliver the most complete protection available. We install STEK DYNOSHIELD PPF as the impact barrier, with premium ceramic as the slick, glossy outer shield.

PHYSICAL BARRIER

Paint Protection Film

STEK DYNOSHIELD

- ◆ Absorbs rock chips & road debris
- ◆ Guards against light scratches
- ◆ Resists bug acids & fallout
- ◆ Self-healing, impact-resistant layer

SURFACE SHIELD

Ceramic Coating

APPLIED OVER THE FILM

- ◆ Increased gloss, depth & slickness
- ◆ Strong water-repelling hydrophobics
- ◆ UV protection slows film aging
- ◆ Easier washing, less spotting & staining

CERAMIC COATING

STEK DYNOSHIELD PPF

YOUR VEHICLE'S PAINT

The ceramic coating acts as the **sacrificial outer layer** — taking on contaminants and water spotting — while the PPF underneath remains the **impact-resistant barrier**. Together they keep your paint cleaner, glossier, and protected far longer than either alone.

NANO-DIAMOND

DQUARTZ Professional

EXTREME HARDNESS & GLOSS

- ◆ Nano-diamond surface hardness
- ◆ Exceptional reflective, wet-look finish
- ◆ Resists chemicals, UV & contaminants

ELITE SiO₂

CQUARTZ Finest Reserve

GLOSS · DURABILITY · RESISTANCE

- ◆ Elite high-SiO₂ ceramic technology
- ◆ Deep gloss & enhanced paint clarity
- ◆ Long-term durability with maintenance

PPF Coverage Packages

STEK DYNOSHIELD self-healing film shields your paint from rock chips, road debris and scuffs. Choose the coverage that fits how you drive — each tier builds on the one before it. Pricing starts at the amounts shown and is finalized after a quick look at your vehicle.

THE FINEST RESERVE DIFFERENCE

< 100

Finest Reserve installers in the entire United States

An elite coating almost no one is certified to apply.

CQUARTZ Finest Reserve is CarPro's flagship nano-ceramic. CarPro heavily vets its installers — there are **fewer than 100 certified Finest Reserve installers in the entire United States**. Earning the certification means meeting an exclusive professional standard, and only a hand-picked group holds the license to apply it.

Next Level Auto Detailing is one of them. When your vehicle wears a Finest Reserve coating, it carries a level of protection — and prestige — that the vast majority of shops simply can't offer.
